

HOW MIGHT WE...?

www.DesignKit.rocks
Tooltorial @ bit.ly/HMWtool

1 Action

Redesign, encourage,
improve, solve,...

- help
- integrate
- design
- facilitate
- deliver
- prevent
- motivate
- minimise
- give

2 Subject

millennials, sales managers,
retired women, CEOs, ...

- Travel groups
- Individual preferences
- Swipe system
- Group decisions
- Destination suggestions
- Imbalance in group decisions
- Booking and planning process
- User behaviour during voting
- Conflicts in group decisions
- Personalised suggestions

3 Outcome

frictionless, affordable, fun,
engaging, ...

- Agreement on a common goal with less conflict
- Harmonious group decision-making based on personal preferences
- User-friendly tool with high participation and clarity
- Faster, transparent voting thanks to smart features
- Recommendations that appeal to all group members
- Fair participation for all, democratic selection
- Less organisational effort, automated processes
- Authentic preferences that lead to better group decisions
- Clear process, fewer misunderstandings
- Individual recommendations that take group needs into account

4 How Might We...?

How could we help groups find a common travel destination more easily?
 How could we use technology to facilitate decision-making processes in group travel?
 How could we provide travel destination suggestions that are tailored to all group needs?
 How could we make booking and planning group trips a smooth process?
 How could we provide personalised recommendations without disrupting group harmony?

Format: **ACTION** you want to achieve (verb), **SUBJECT** to be influenced or affected, so that **WHAT** you would like to achieve (outcome)?

Example: HMW redesign the contraceptive buying experience for teenage girls to make it less stigmatising?

Board of Innovation

How can we come up with a clear and inspiring Creative Question
(How might we...?) for our challenge?
